# LOGISTICS DISTRIBUTION POLICY CENTER

# MARINE CORPS TACK-ON
# 23 April 2007

*Col Kevin LaSlavic*
*LPD*

# *CURRENT ENVIRONMENT*

- Changing throughout DOD
  - "Distribution" still being defined
- Increase in business process reviews and the coordination/dissemination of policy and procedures
- Shifting Roles and Responsibilities
  - TRANSCOM/DPO Initiatives
  - Marine Corps Initiatives
    - Expeditionary Logistics Initiatives Roadmap
    - MDC/MDP
    - LOGCOM End-to-End
- LPD Functional Responsibilities
  - Current/Future
- TMO Responsibilities
  - Evolving

# *TMO HISTORY AND EVOLUTION*

- Distribution of sustainment from SPOD/APODs in Vietnam (little to no interface with supply existed)
- 800+ Marines in separate MOS's for PPTY, PAX, and Freight (no cross training)
- Automation push within all areas (e.g., TOPS, AGTR, CMOS, AMS-TAC)
- Lack of sustainment training for exercises
- Joint issues; TRANSCOM evolution
- Internal Marine Corps perception of TMO continues (e.g., why do we need a TMO OCCFLD)
- Base/Station functions vs. war time interface with strategic, theater and tactical distribution nodes…

# *DMO/TMO - WHERE DO WE GO FROM HERE*

- MAGTF Distribution Center (MDC)
- Distribution Management Officers (DMO) vs. TMO
- CMC Guidance to Right size the USMC
- Is the OCCFLD on the same page pertaining to the “Marine Corps” Core Mission and Title 10 Responsibilities?
- Are 3102/3112’s as deployable as they need to be?
